

# The tale of a next generation Linux distribution

**António Meireles (aka doniphon)**

Faculty of Architecture, Oporto University

**FOSDEM 2008**

# The tale of a next generation Linux distribution

- Why another Linux distribution ?
- What makes us unique ?
  - Conary  
(see mkj's talk after lunch in main track)
  - It is a binary rolling distro
  - taste
- The truth about release cycles
  - major vs minor releases
  - achieve a binary rolling distro

# The tale of a next generation Linux distribution

- What works now
- What will come next
- Why the 'Foresight model' will succeed

# The tale of a next generation Linux distribution

## Thank You

**foresight**  
**desktop linux**
