# Microkernel OS devroom

Welcome!
Why do we meet here today

# Once upon a time in Prague...

2 developers of 2 OS projects meet in a pub

talk about their projects

projects are not aware of each other

yet their problems look similar

let's bring the actual developers together in greater number and have them talk to each other
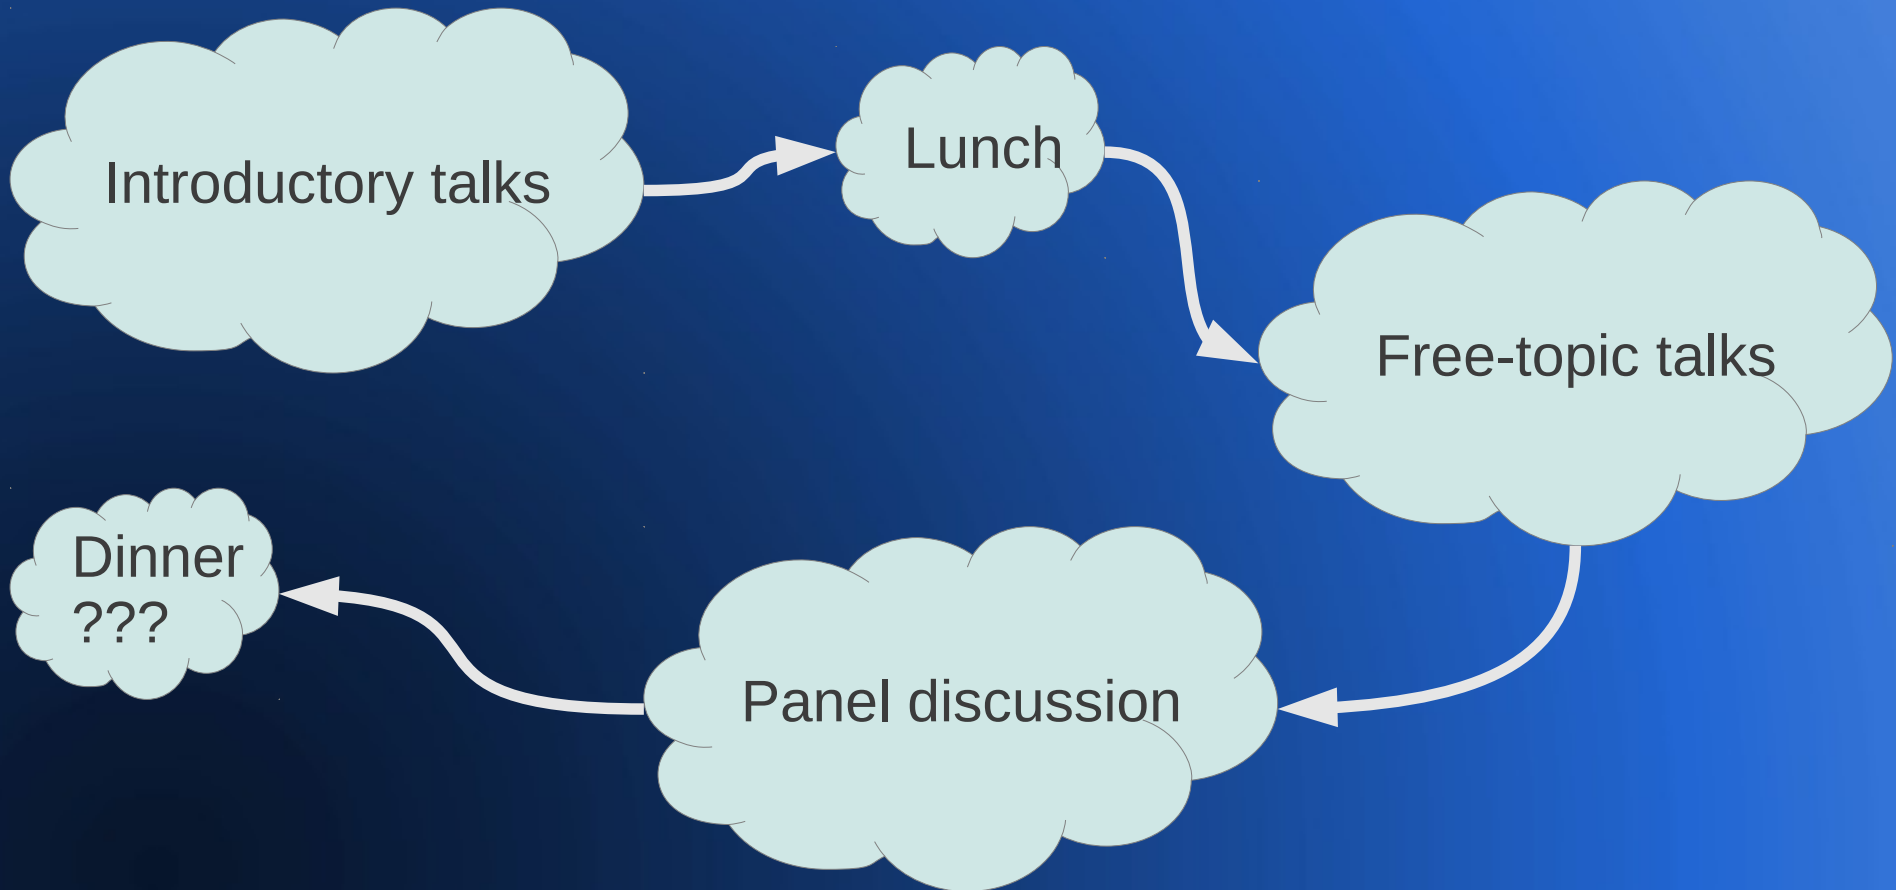

# Two years later in Brussels

the idea did not fade out and here we are today meeting in Brussels

there are many applicable projects in Europe

outsource the organization overhead to FOSDEM organizers

FOSDEM devroom a natural choice

# Plan for the day

Introductory talks → Lunch → Free-topic talks → Panel discussion → Dinner ???

# A couple of appeals

Do not exceed the room capacity

Take your trash with you

Submit questions for the panel discussion

# Participating projects

Genode

HelenOS

Hurd

MINIX 3

NOVA microhypervisor

# Projects put into perspective

Developer communities of comparable sizes

small active core, ~30 developers total

Code bases of varying sizes

160 – 900 KLOC

GPL:BSD

3:2

C:C++

3:2

# Enjoy the devroom
