New: hackathon

A large group of people are gathered in a conference room, working at laptops. The room is filled with people, some sitting at long tables, others standing and talking. The atmosphere appears busy and collaborative. In the background, there are whiteboards and a poster on the wall. The poster lists roles: Wikipedian (red dot), Researcher (green dot), Artist (yellow dot), Data Provider (blue dot), and GLAM (black dot).

Help fix some really difficult problems
Select a FOSS project in need of meeting physically
Bring the project team to Brussels
Let them work together for 1-3 days
Planned for November 2018

More communication

Awareness about EU-FOSSA 2

Awareness about the importance of software security in general

Listening to you

A person with dark hair, seen from the back, is in the middle of an archery shot. They are holding a bow and arrow, aiming towards the right. The background is a blurred outdoor setting with green grass and trees. The text is overlaid on the right side of the image.

The ultimate goal

Try different methods of addressing security of open source software used at the EU institutions

Make investment into the security of open source software a permanent action of the EU

... while improving OSS security already!
