What about a project... ?

that fits needs of people:

- living in big cities?
and/or;
- travel from one city to the other;
- care about privacy;
- Like to edit easy to edit OpenStreetMap.

What about a project... ?

fits needs of people:

- **living in big cities?**
and/or;
- travel from one city to the other;
- care about privacy;
- Like to edit easy to edit OpenStreetMap.

What about a project... ?

fits needs of people:

What about a project... ?

fits needs of people:

- living in big cities?
and/or;
- travel from one city to the other;
- care about privacy;
- **like to edit easy to edit OpenStreetMap.**

What about a project... ?

- not a startup (ewww);
- that is community led;
- FLOSS (of course);
- respects privacy of the users;
- but also respects all contributors EQUALLY (compensation system?).

About the project

CityZen is an open source Android app that helps you navigate and explore the city easily. With CityZen you find points of interest (POIs) such as ATMs, gas stations, drugstores, mobile phone stores and other interesting services near you. The app shows these POIs based on your location of your smartphone, but it does so by respecting your privacy since we don't keep your navigation data. The app is open source licensed because we want the project to be empowered by the community for the community. We initiated this project as a way of empowering tools and platforms such as OpenStreetMap that respect our freedoms. If you are an OpenStreetMap contributor you can easily add information to the POIs by editing them inside CityZen.

How to get involved

How to get involved: code improvements

The screenshot shows the GitHub interface for the 'CityZen app project'. At the top, the browser address bar displays 'https://github.com/CityZenApp'. The GitHub navigation bar includes 'This organization', 'Search', 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. The project name 'CityZen app project' is prominently displayed next to its logo, which consists of four red quadrants. Below the name, a description states: 'CityZen is an open source Android app that helps you find POIs such as ATMs, gas stations etc based on your location using OpenStreetMap. It doesn't track you!'. Contact information for the project is listed: 'Tirana, Albania', 'http://www.cityzenapp.co', and 'ping@cityzenapp.co'. A navigation bar below the project name shows 'Repositories 8', 'People 8', 'Teams 4', 'Projects 0', and 'Settings'. Under the 'Pinned repositories' section, the 'Android-Development' repository is highlighted, described as 'CityZen Android App, OpenStreetMap base-map', with 32 stars and 17 forks. At the bottom, there is a search bar for repositories, filters for 'Type: All' and 'Language: All', and a green 'New' button.

How to get involved: localization

The screenshot shows the Weblate interface for a project named 'cityzen/strings'. The browser address bar displays 'https://hosted.weblate.org/projects/cityzen/strings/'. The interface features a search bar and navigation icons. Below the header, a table lists various languages with their localization progress. Each row includes a language name, a progress bar, and several percentage values representing different stages of translation. A 'Translate' button is provided for each language.

Language	Progress Bar	100%	100%	100%	Count 1	Count 2	Translate
Bulgarian	<div style="width: 0%;"></div>	0.0%	0.0%	0.0%	0	0	Translate

The screenshot shows the Utopian.io website interface. At the top, there is a browser address bar with the URL <https://utopian.io>. Below the browser bar is a dark navigation bar with the Utopian logo (a stylized eye) and the word "beta". To the right of the logo are the words "Projects" and "Search...", and further right are "Sign up" and "Log in" (partially visible). Below the navigation bar is a main content area. On the left side of this area, there is a sidebar with the text: "Do you often contribute to Open Source projects? Utopian.io rewards contributors like you for the hard work!". The main content area features a navigation bar with "All", "Suggestions", and "Sub-Projects" tabs. The "All" tab is selected. Below this, there is a list of project posts. The first post is titled "New Reputation Ranking feature has been integrated in My Steemit Friends" and is categorized as "DEVELOPMENT" by user "Bulletproofmonk/MySteemitFriends". The post text reads: "Tool website: Github: Merged Pull Request: New Features What feature(s) did you add? My Steemit Friends has been u...". Below the text are tags for "steemdev", "steemit", "steemtools", and "programming". The post is by user "magicmonk" with a reputation of 65, posted "4 hours ago". It has 40 likes and 6 comments, and is valued at \$12.10. The second post is titled "Java Graphical User Interface(GUI): Adapter Class Using Eclipse IDE" and is categorized as "TUTORIAL" by user "eclipse/che". On the right side of the main content area, there is a sidebar with the text: "New to Utopian? Utopian uses the Steem blockchain to reward Open Source contributors." and a button that says "Sign up with Steemit".
