All started in Tokyo...

Extension of previous analysis (focus on CPython)

Lack of existing data

Transparency and improvement

Learn from best practices

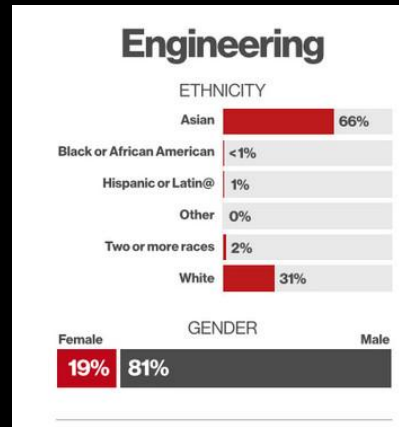

Ethical and business perspective

Involved in CHAOSS D&I

Python diversity statement:

“some of these attributes include (but are not limited to): age, culture, ethnicity, **gender identity** or expression, national origin, physical or mental difference, politics, race, religion, sex, sexual orientation, socio-economic status, and subculture. We welcome people regardless of the values of these or other attributes.”
