# Curriculum Vitae

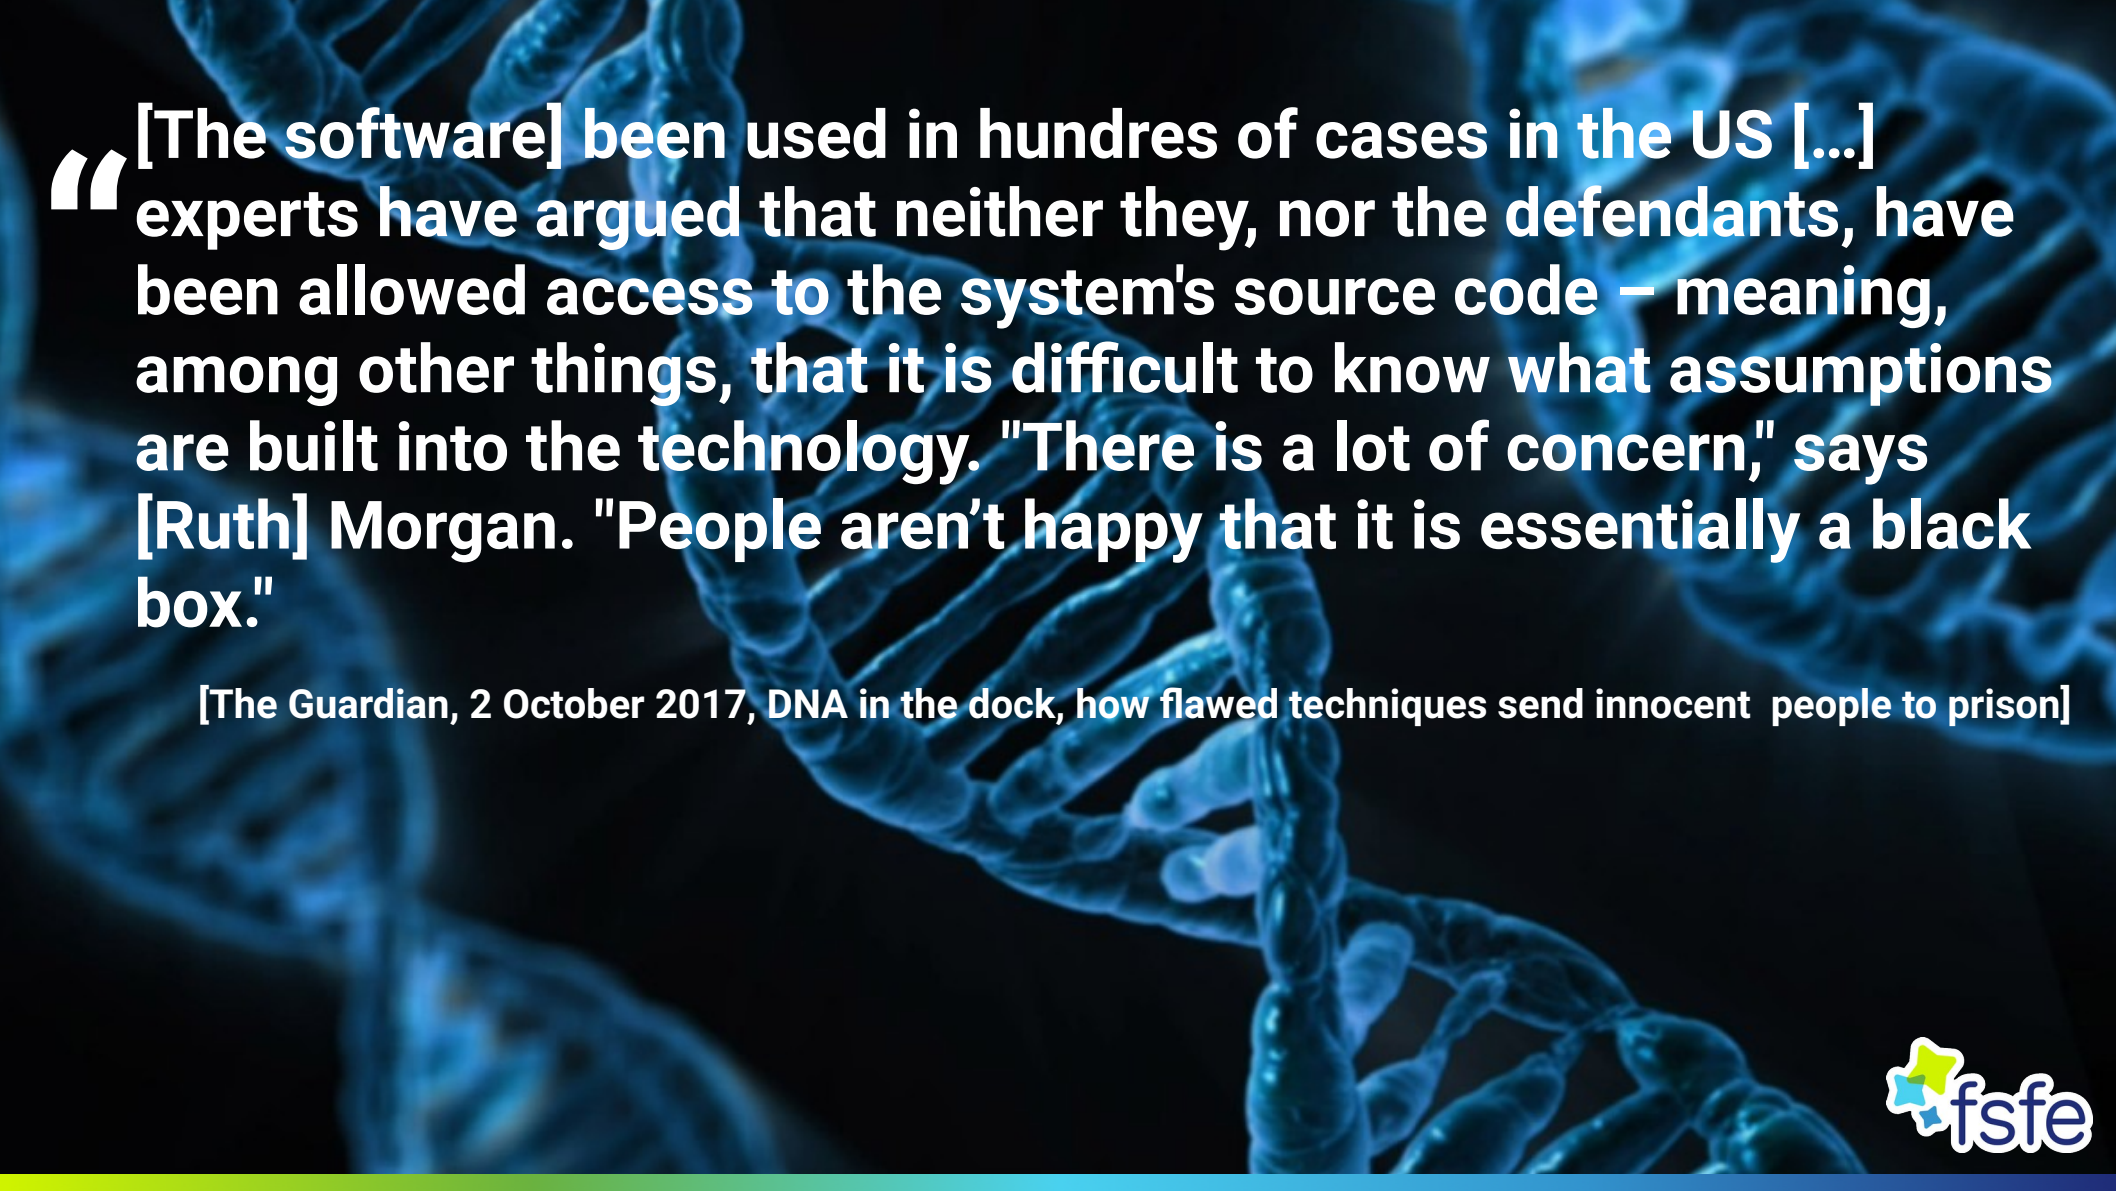

**Many many more  
will be affected**

**“[The software] been used in hundres of cases in the US [...] experts have argued that neither they, nor the defendants, have been allowed access to the system's source code – meaning, among other things, that it is difficult to know what assumptions are built into the technology. "There is a lot of concern," says [Ruth] Morgan. "People aren't happy that it is essentially a black box."**

**[The Guardian, 2 October 2017, DNA in the dock, how flawed techniques send innocent people to prison]**

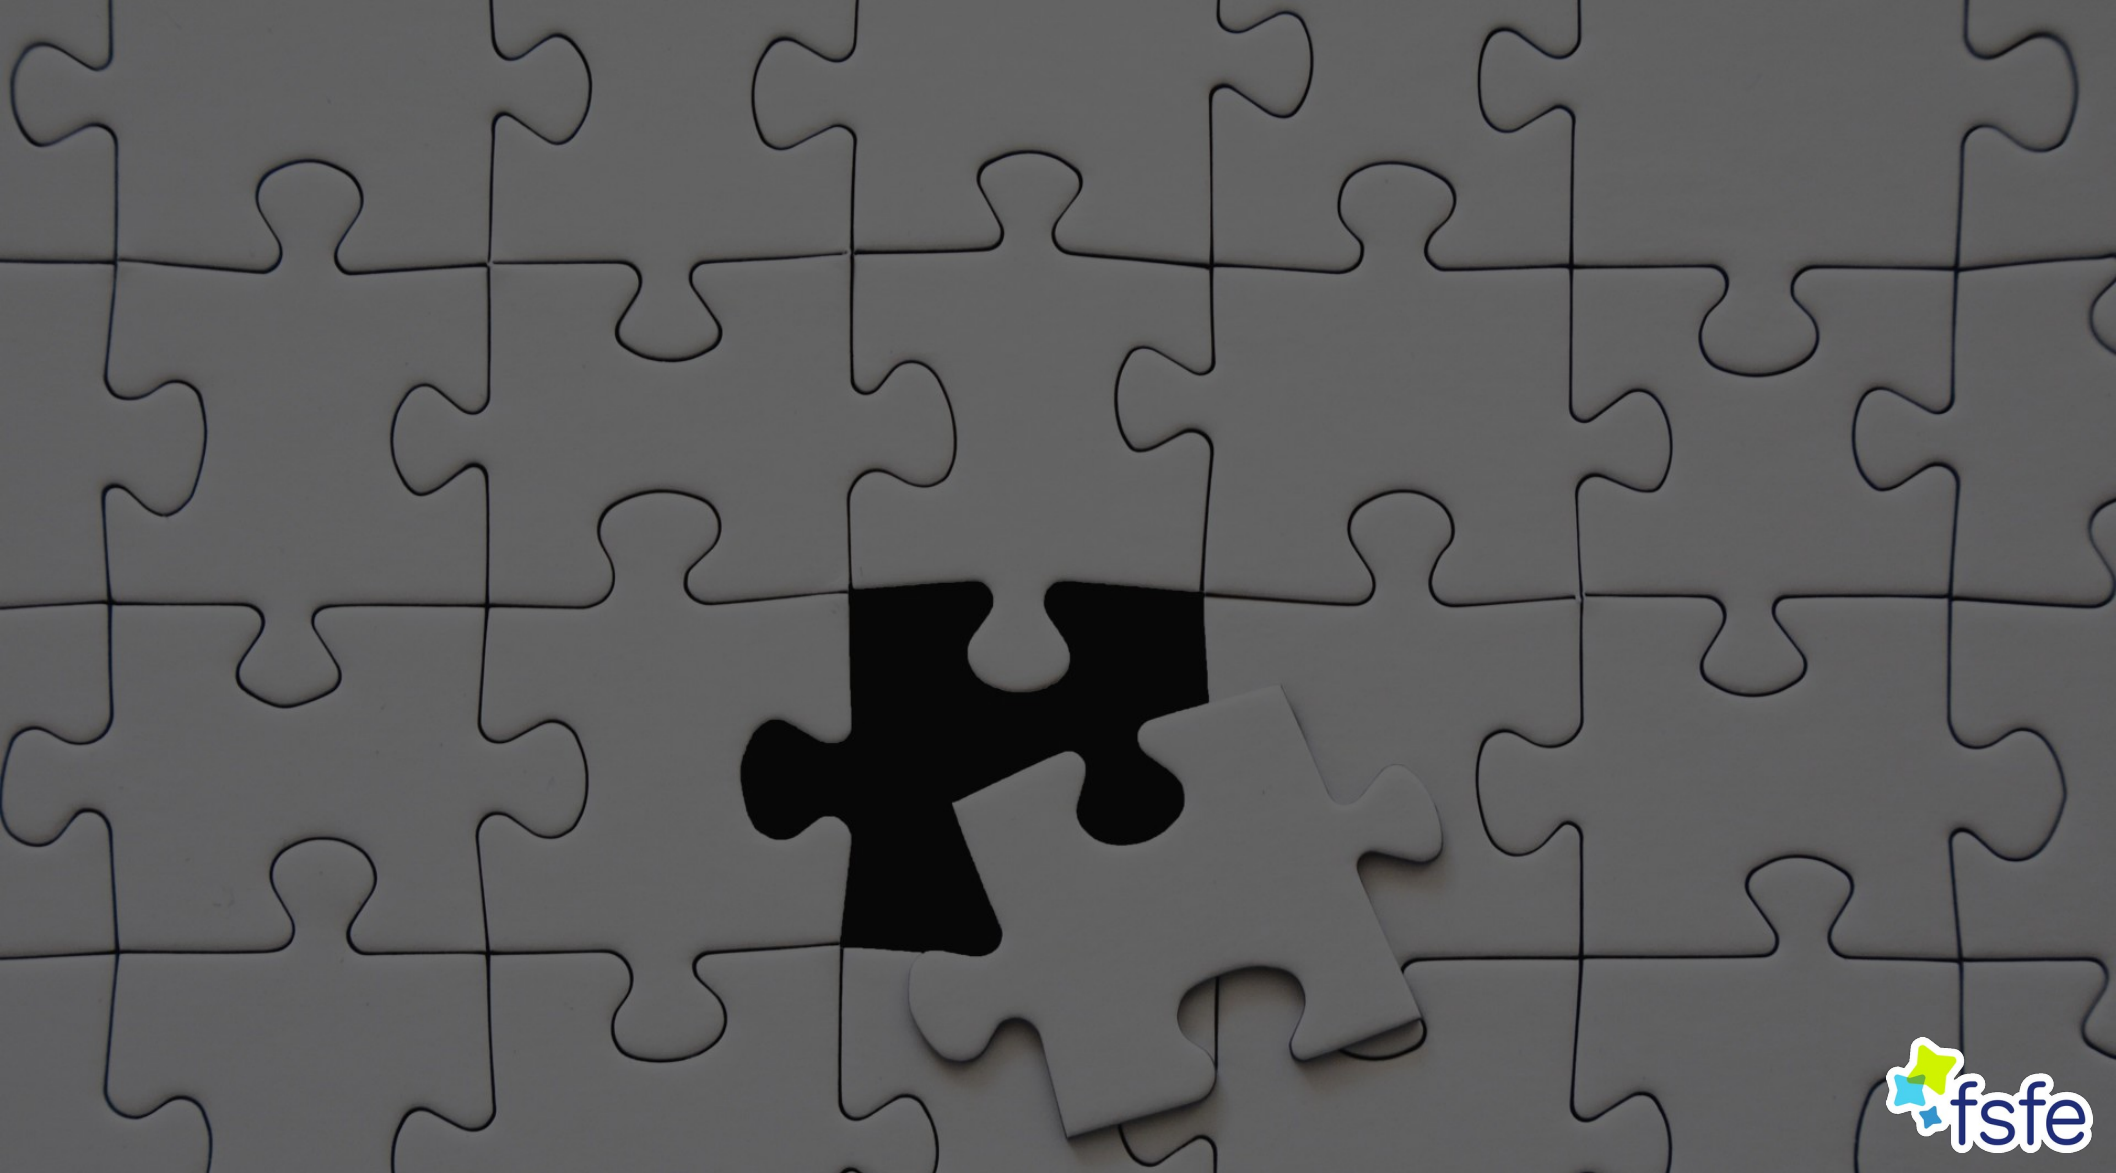

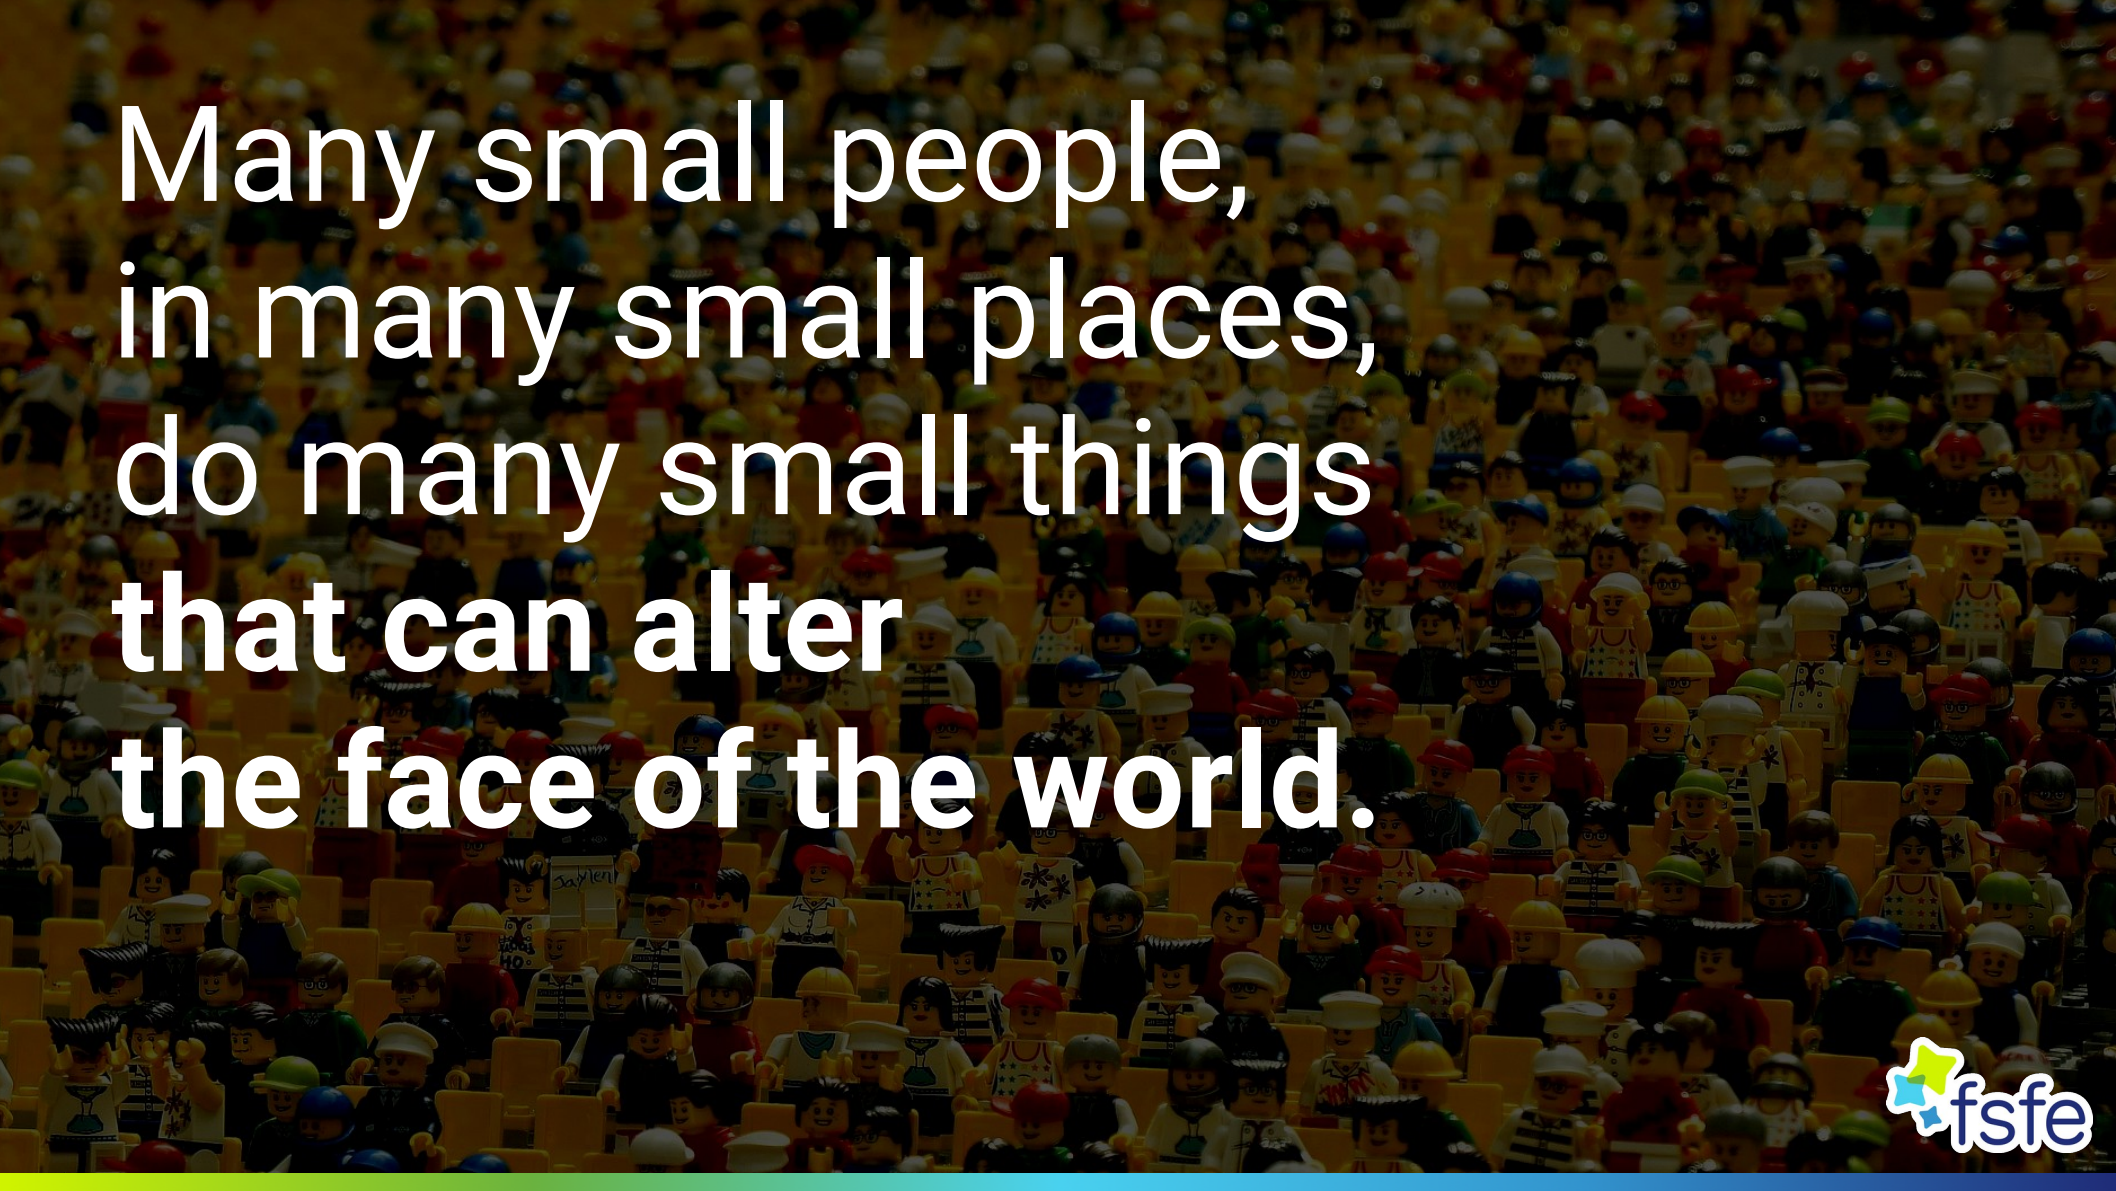

A large crowd of diverse LEGO minifigures is seated in yellow stadium seats, filling the frame. The minifigures have various features, including different headgear, clothing, and accessories, representing a wide range of characters. The text is overlaid on the left side of the image.

Many small people,  
in many small places,  
do many small things  
**that can alter  
the face of the world.**

# Thank you!!!

- FSFE booth, K level 2, group E
- My talk “The core values of software freedom”,  
Sunday 11:00, Janson
