OPEN SOURCE POLICY

The potential of open source not only for code, but also for policy documents.

CodeandoMéxico

Ricardo Mirón

I am **Lead Project Manager @ Codeando México**. I work with communities on civic technology and open data.

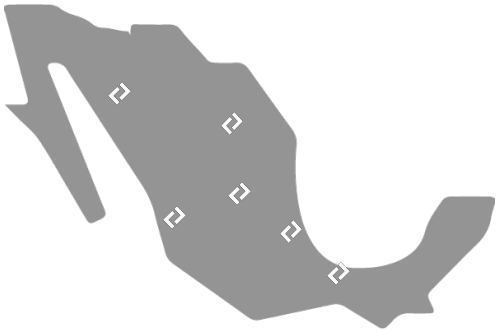
ABOUT CMX*

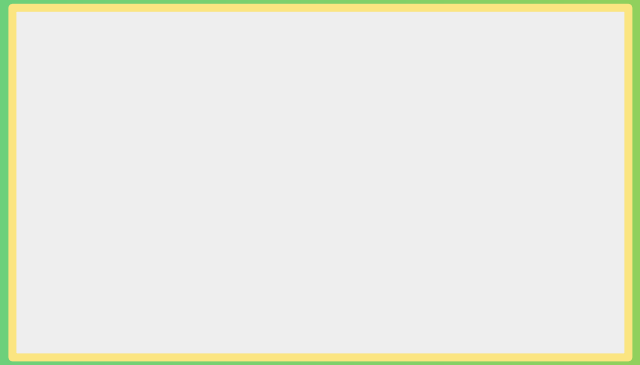
We are a community of **volunteer people with technological skills** distributed throughout the country.



*All illustrations, icons and vectors used are open source by unDraw and Remix Icon.

PUBLIC POLICY

A bumpy road to an open and transparent government in Mexico



CONTEXT*

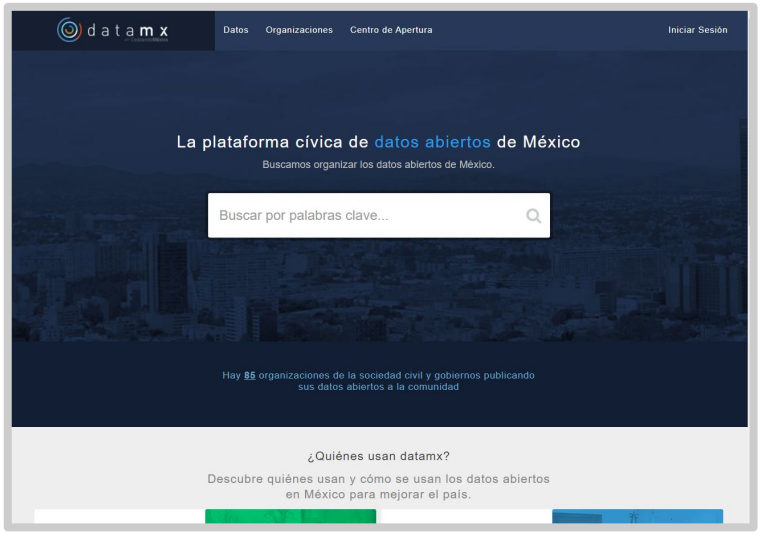
One of the pillars to promote open government at any level of government is that there should exist an **open data policy**.

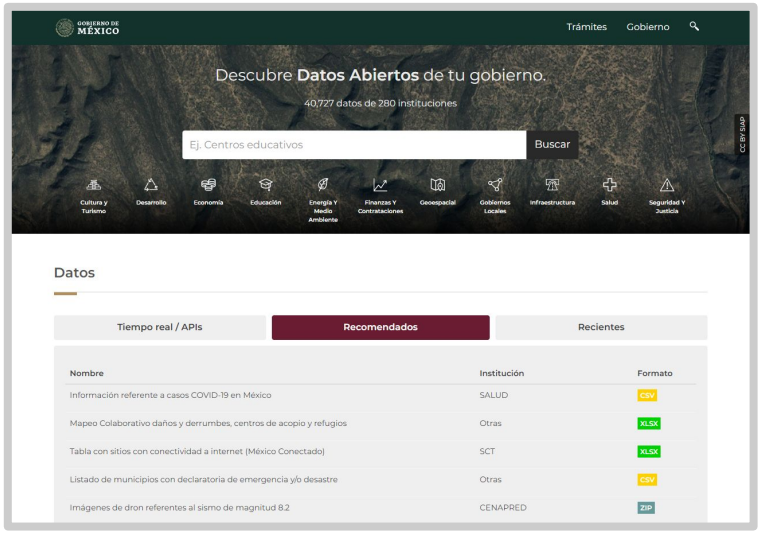
In the Mexican context, although one already exists at the federal level, **very few states and municipalities have open data strategies**.

Open Government Partnership

open data charter

*All illustrations, icons and vectors used are open source by unDraw and Remix Icon.



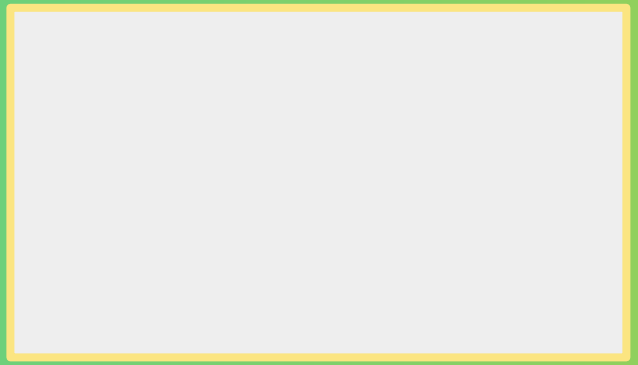


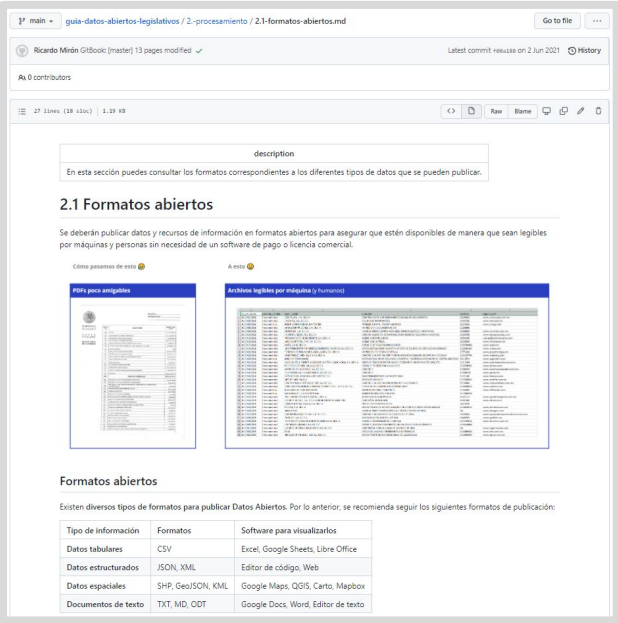
Previous **civil society efforts** to create an open data portal have pressured the government to officially **publish data**.

*All illustrations, icons and vectors used are open source by Remix Icon.

OPEN SOURCE

Democratizing the creation of public policies through community efforts





We have a **public repository** with all documents and resources in plain text (*markdown*) where **anyone can contribute** to the project.

`https://github.com/CodeandoMexico/politica-datos-abiertos`

*All illustrations, icons and vectors used are open source by unDraw and Remix Icon.

CONTENT*

+ Data **management and governance**
+ **Infrastructure and capacity** for quality data
+ **Technical and legal requirements** to open data
+ Data **opening and socialization plans**
+ Strategies for **value generation and data reuse**

*All illustrations, icons and vectors used are open source by unDraw and Remix Icon.

Community involvement

Flexible adoption

Cost-effectiveness

Transparency

Reusability
