Building a Kirigami app In 2023

Carl Schwan - FOSDEM 2023

About me

- KDE developer since 2018
- KDE e.V. member since 2019
- Maintain the websites and help with the promo and fundraising team
- Wrote multiple Kirigami applications: NeoChat, Kontrast, Tokodon, Kalendar and Arianna
- Work at the KDAB Group

1

```
MastoPage {
title: i18n("Login")
leftPadding: 0
rightPadding: 0
ColumnLayout {
    width: parent.width
    MobileForm.FormCard {
        Layout.topMargin: Kirigami.Units.largeSpacing
        Layout.fillWidth: true
        contentItem: ColumnLayout {
            spacing: 0
            MobileForm.FormCardHeader {
                title: i18n("Welcome to Tokodon")
            MobileForm.FormTextFieldDelegate {
                id: instanceUrl
                label: i18n("Instance Url:")
                onAccepted: continueButton.clicked()
                inputMethodHints: Qt.ImhUrlCharactersOnly | Qt.ImhNoPredictiveTex
            MobileForm.FormDelegateSeparator {}
            MobileForm.FormSwitchDelegate {
```

History of Kirigami

Timeline

- 2015 Plasma Mobile is officially announced
- March 2016 Kirigami is created by Marco Martin at a sprint at CERN
- October 2016 Introduction of the qqc2-desktop-theme
- October 2017 Introduction of the color theme api
- Early 2020 Launch of the PinePhone
- 2022 Launch of Kirigami Addons

3

New components

Kirigami - List and section delegates

Kirigami Addons - MobileForm

Kirigami Addons - TreeView

Kirigami Addons - Search Popup
