

Does your CV follow a standard?

Free Culture CV: an open source idea to show the community your contributions

Pablo Hinojosa Nava (metrics lover)

Main goal

**Create a community to
build a project to **solve the
main question****

The community has already started here

<https://codeberg.org/Pablohn26/FreeCultureCV>

Main question

**How do we show our
contributions to Free
Culture Communities?**

We need a Free Culture CV (inside our CV)

This talk IS NOT to:

- Show a product
- Demo
- Latest updates of something

This talk IS to:

- Create/extend an open CV standard
- More environmental sustainability
avoiding papers
- Show how and where do we collaborate

This talk

IS to:

- Create a **community**
- Improve relationship between candidates and recruiters
- More control over your personal data

Index

What is this about

- 20th century CV vs 21st century CV
- Current standard: the amazing Europass journey
- My identity: my Free Culture “CV”
- Things for inspiration (current options)/
discuss/decide/build in the community

20th century CV vs 21st century CV

Comparison between what do we have and what we have to build as a
community

20th century CV

vs

21st century CV

Usually* non standard

Each CV has a different template and fields

* In the EU we have an standard: Europass (next slides).

PD: LinkedIn must not be an standard

Each CV shows the information in a different way or create a LinkedIn profile

Static

Each time you have a new job you have a new CV

Could you send me your latest CV?

Standard

Open standard in terms of format, fields and features

We know how is the information that we need to fill the whole CV

Dynamic:

Your CV changes every day with every contribution

The link of my CV is here

20th century CV

vs

21st century CV

Not searchable nor indexable

It is difficult to search on papers and several PDF

How recruiters filter who has Linux skills?

No validations nor configurations

How do we know the information is true?

How do we setup which kind of information do we want to share?

Please, send us your University title

Could you provide me your phone number/email?

Paper:

How do we show our work if it is multimedia?

Please, send me your CV and your related work. Due to data protection go to trash. Environmental issue

Searchable and indexable

Recruiters need to search for content fields and index CV

Please, show me the people with Linux skills

Validable and configurable:

We have APIs to validate the content and we can provide a way to setup which content do we want to share with another person

Your University confirms you have the title

You can share your personal information when you want

Multimedia:

Your CV can include pictures, videos, music

Better portfolio.

Do not go to trash because it is online.

The Amazing Europass journey!

A quick overview of current EU standard CV

The amazing Europass journey!

All started like this

The screenshot shows the European Environment Agency website. The header includes the agency's name and logo, and a navigation menu with links for Topics, Countries, Data and maps, Indicators, Publications, and Media. A breadcrumb trail indicates the current page is 'Template - Europass CV'. The main content area features a teal background with a white 'FILE' button. Below this, the title 'Template - Europass CV' is displayed, followed by the publication date 'Published 27 Sep 2019'. At the bottom, a download link for 'Europass CV.docx' is shown, with details: 'Microsoft Word (Office 2010), 78 KB (79986 bytes)'. A large orange arrow points from the left towards the download link.

At the top, a progress bar indicates the completion status of four sections: 'Personal information' (checked), 'Work experience' (checked), 'Education and training' (checked), and 'Personal skills' (in progress, indicated by a pencil icon). Below the progress bar, the 'Personal skills' section is titled and includes a description: 'Describe your personal skills, such as language skills and digital skills, etc.' The main content area is titled 'Language skills' and contains the instruction 'Present your language skills here.' There are two entries for language skills. The first is 'Mother tongue' with the value 'Spanish' and a 'Delete' button. The second is 'Other language' with the value 'English' and a 'Delete' button. Below these entries is a '+ Add another mother tongue' link. Under the 'Other language' entry, there is a section for 'Understanding' with two dropdown menus for 'Listening' and 'Reading', both currently set to 'Select'. A tooltip is visible over the 'Listening' dropdown, showing a description of 'very basic personal and family information, shopping, local area, employment)'. Below the dropdowns, there are two levels of proficiency: 'B1 - Independent user' and 'B2 - Independent user', each with a description of the skill level. At the bottom of the form, there are three buttons: 'Exit', 'Previous', and 'Create'.

Level 6

At this advanced level, you can find solutions for your needs and those of others in complex situations. This includes browsing and searching, as well as evaluating and organising data and information (in your folders or on search engines).

Examples in this area include:

- Knowing which words to use in order to find what you need quickly (e.g. to search online or within a document)
- Understanding that different search engines may give different search results
- Checking if the information found online is reliable
- Organising content such as documents, images, and videos using folders, or tagging to find them back later

At this advanced level, you can find solutions for your needs and those of others in complex situations. This includes interacting, sharing and collaborating through digital technologies. It also includes using digital services (example: e-banking, online shopping), following an acceptable behaviour online and managing your digital identity.

Examples in this area include:

- Knowing which communication tools and services (e.g. phone, email, video conference, text message) are appropriate to use in different circumstances
- Understanding how to apply for a job using a digital platform (e.g. fill in a form, upload my CV and photo)
- Editing shared, online documents
- Knowing how to behave online according to the situation (e.g. formal vs informal)

Just as we need the ability to prove real-world identity, so will the need arise in the digital domain as the offline world slowly merges with the online world. But this time, let's improve on the concept and give people full sovereignty over their identity.

Keyoxide is a new decentralized tool to verify online identities using modern cryptography through a system of claims and proofs. People use it to establish a verifiable digital passport that links to all their online accounts. These passports can even be anonymous.

This talk briefly introduces the concept of online identity and explains how Keyoxide went about solving it in a decentralized way, using established cryptography standards and infrastructure, without needing blockchain-related technologies.

Metrics extractors for each free culture community.

Converters:

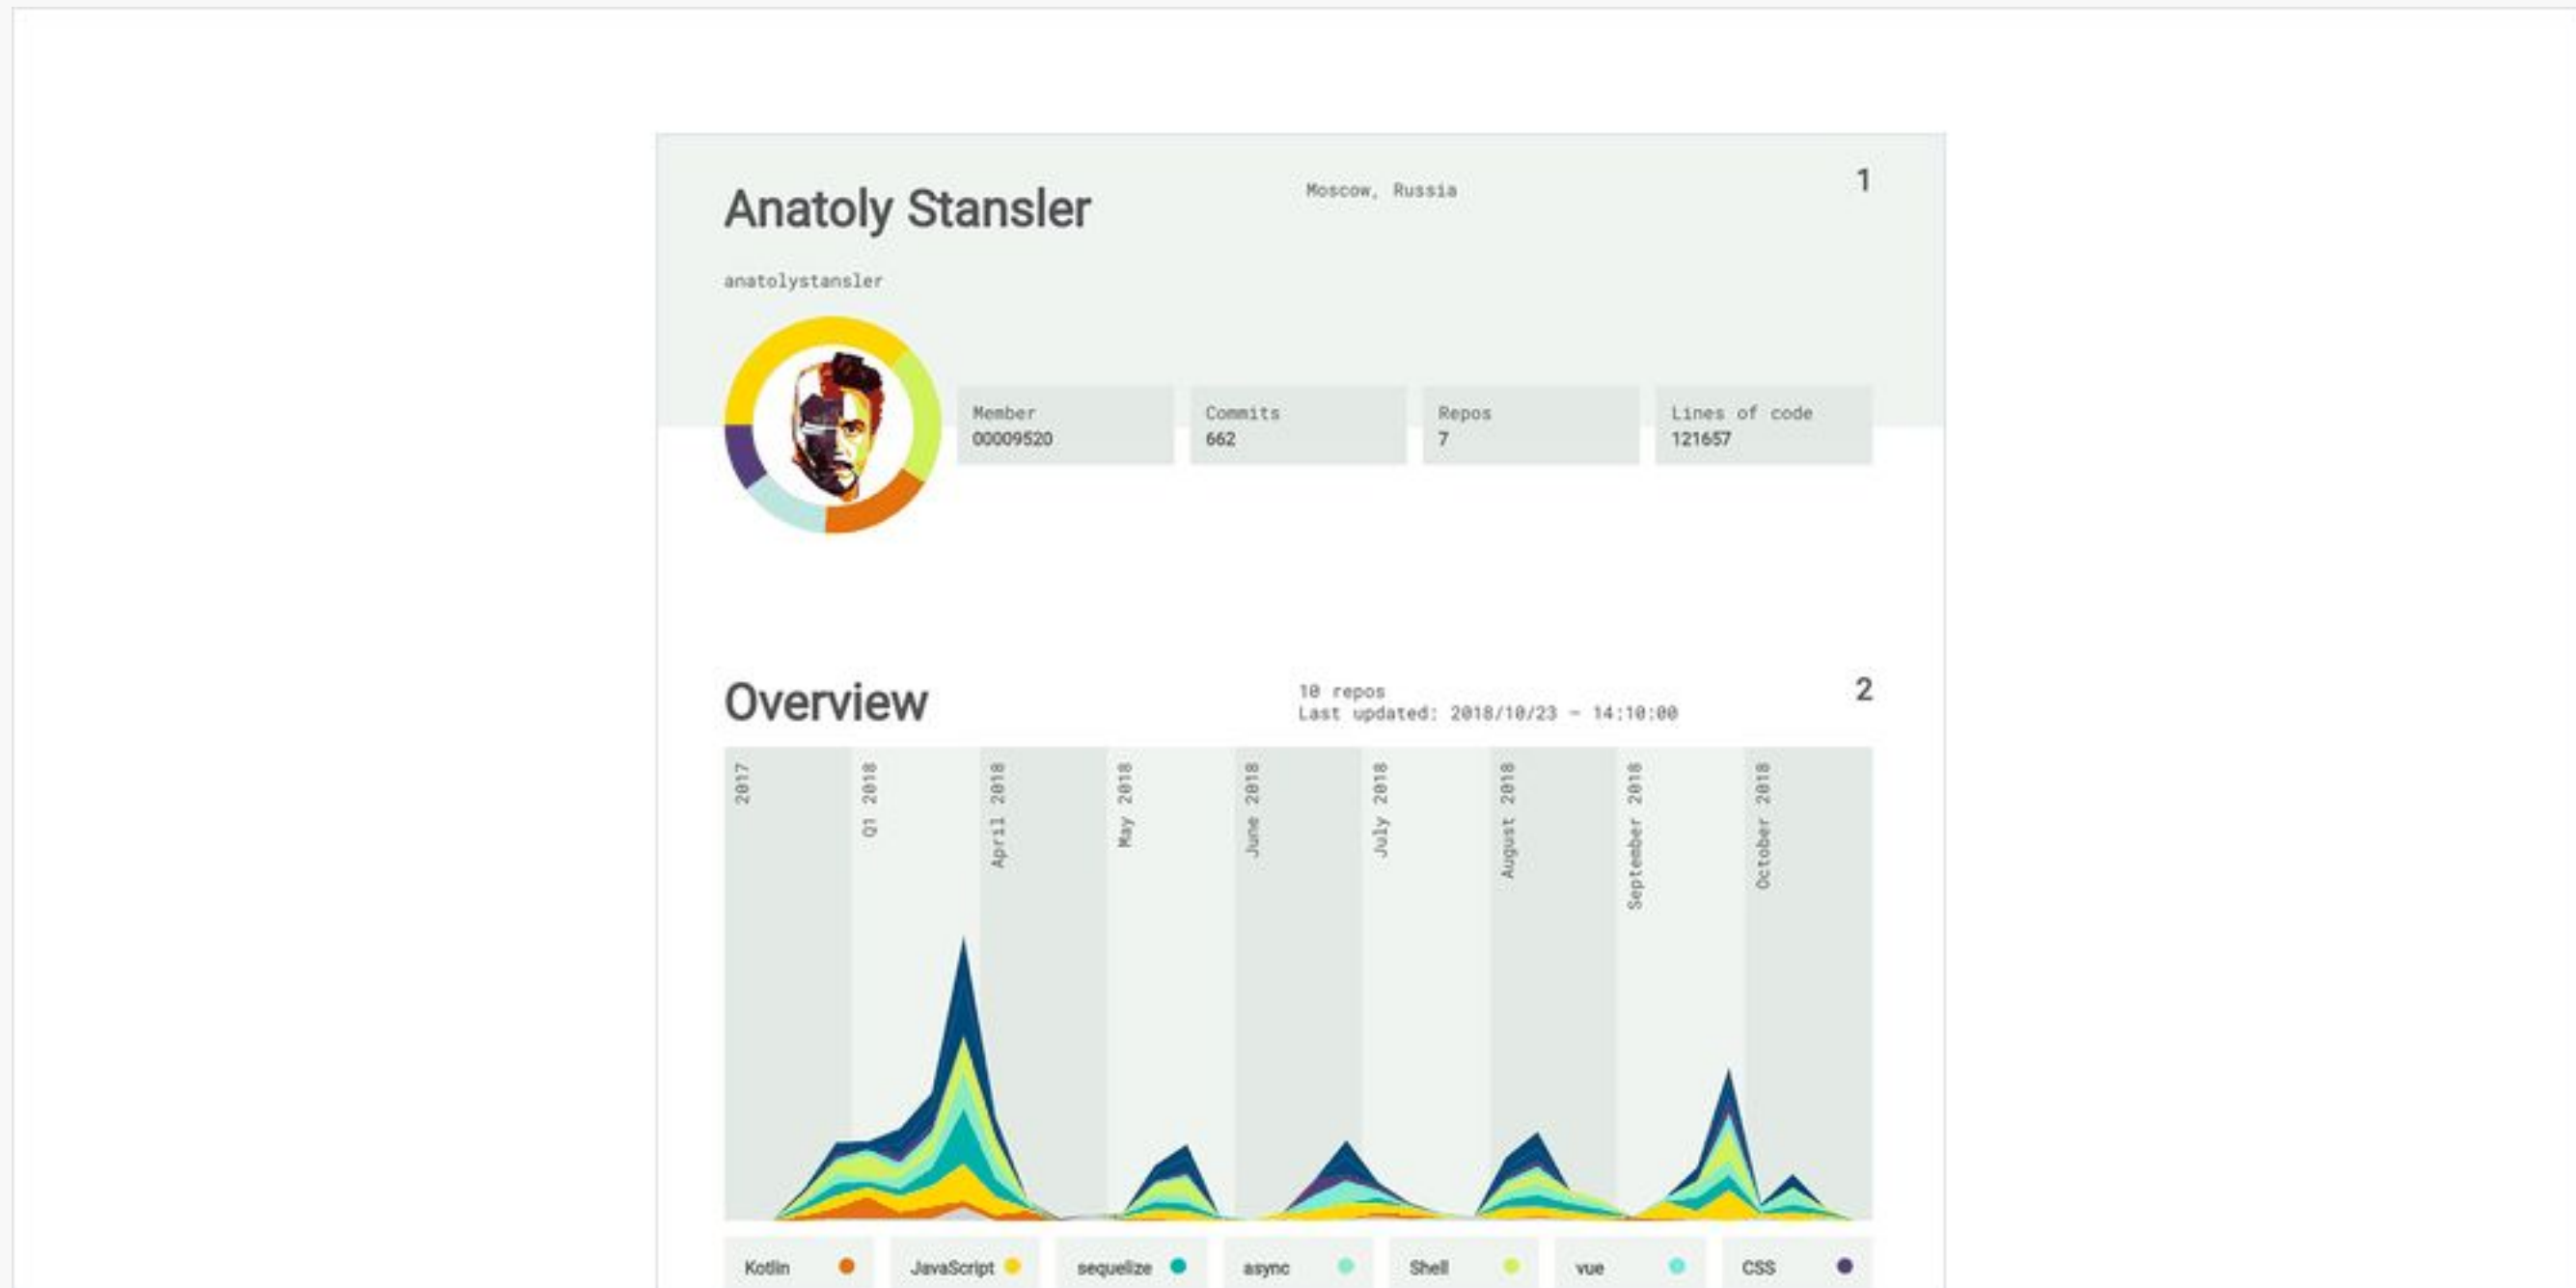

- LinkedIn CV to Free Culture CV
- Free Culture CV to Europass
- Europass to Free Culture CV

To discuss and decide:

- Which data fields should be mandatory? (data privacy)
- Backend (how we structure the information): Europass or self developed
- CV public database? EURES? None?
- Allow to share with somebody personal data?
- Provide retrocompatibility to old CV? (ability to print as PDF)
- Another questions we will find on the way
