# Environmental Sustainability

Requires:

**The intelligence and intention to understand, predict and manage the stability of natural resources.**

Turbulent eddies in water vapour from a 3 km horizontal resolution using the Exascale global atmosphere model [SCREAM](#)

# What enables Open Source Software in Environmental Sustainability?

2,409 codebases in total were audited by Synopsys in 2021, of which 97% contained open source.

Potential

# Environmental Intelligence

**Air Quality**

**Forest Change**

**Noise**

**Emission**

**Biodiversity**

**Urban Vegetation**

**Heat Islands**

# Environmental Technology

State-of-the-art 15MW  
reference wind turbine:  
[IEA-15-240-RWT](#)

Simulating the  
performance of photovoltaic  
energy systems with [pvlib](#)

[PyPSA](#) is an open source toolbox for  
simulating and optimising modern  
power and energy systems

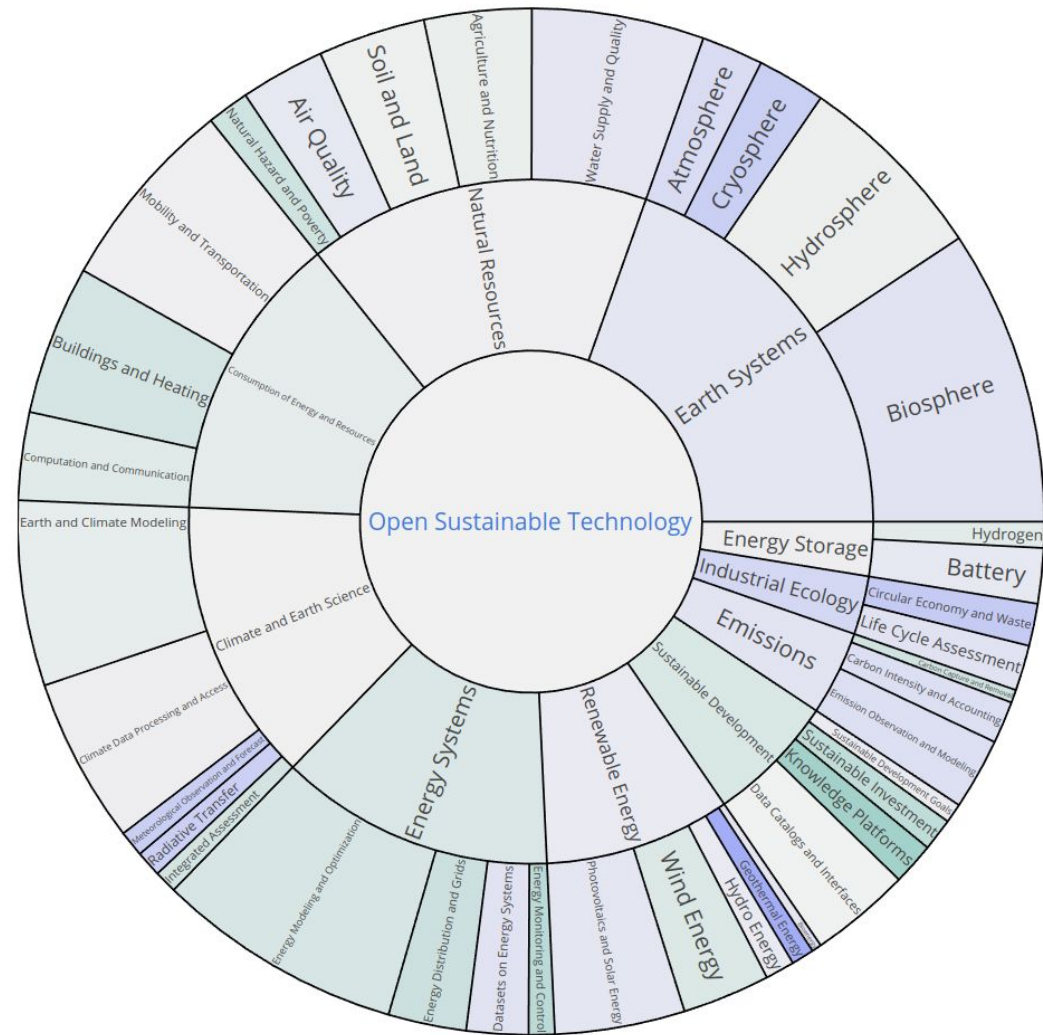

# Methodology

**Compilation and curation of all active projects that primarily aim at environmental sustainability**

**Automated collection of repository metadata and targeted interviews with developers**

**Collaborative report cross-validation between qualitative and quantitative insights**

# Overview on the dataset

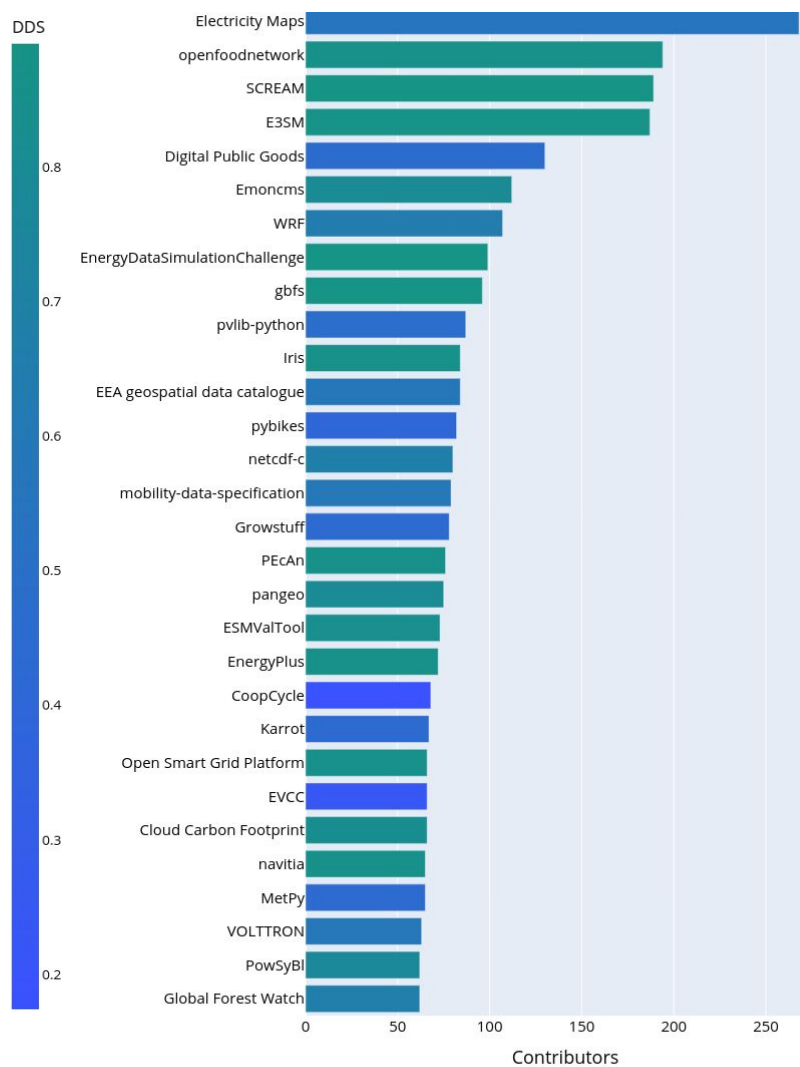

Dimension	Value
Total number of projects	1339
GitHub projects	1187
GitLab projects	27
Other platforms	125
Number of projects in personal namespace	547
Number of projects in community namespace	792
Total stars of all projects	126568
Total contributors in all projects	14628
Active GitHub projects	995
Inactive GitHub projects	192
Projects with contribution guide in %	30.58
Projects with code of conduct in %	13.98
Projects accepting donations in %	3.71
Median number of commits	481
Median stargazers	42
Median stars last year	11
Median Development Distribution Score	0.3043
Median number of contributors	6
Median closed issues last year	8
Median commits last year	23
Median age in years	4.45

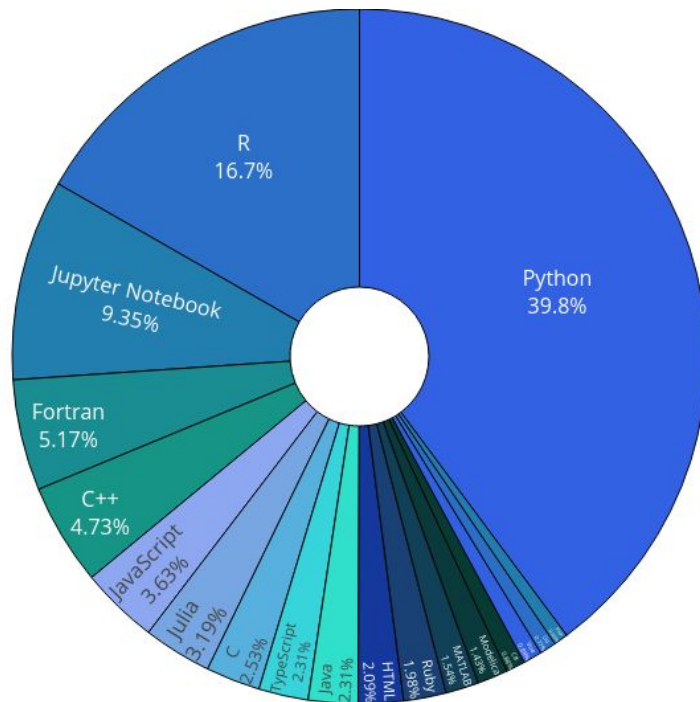

# Popularity

38,851 Projects  
with more than  
1000 ★ on  
GitHub

3 project in this  
ecosystem

# License and Language

# Origin and Form of Organisation

# Projects and Topics

**Biosphere, Climate Science and Energy sector leading in project numbers.**

**Remarkably few projects in topics like: Sustainable Investment, Carbon Offsets, Carbon Capture and Hydrogen.**

# Sustainable Rating and Investment

Assets under management (US\$ trillion)

N° Signatories

[United Nations Principles for Responsible Investment](#)

# Corporate Sustainability Assessment

# Throwing the Dice

*“Addressing ESG rating divergence requires one to understand how the data that underpin ESG ratings are generated.”*

[Florian Berg, Julian F Kölbl, Roberto Rigobon, Aggregate Confusion: The Divergence of ESG Ratings, \*Review of Finance\*, Volume 26, Issue 6, November 2022, Pages 1315–1344.](#)

# Carbon Offsets and Credits

94.9m

carbon credits  
claimed

5.5m

real emissions  
reductions

[Revealed: more than 90% of rainforest carbon offsets by biggest provider are worthless, analysis shows.](#) The Guardian

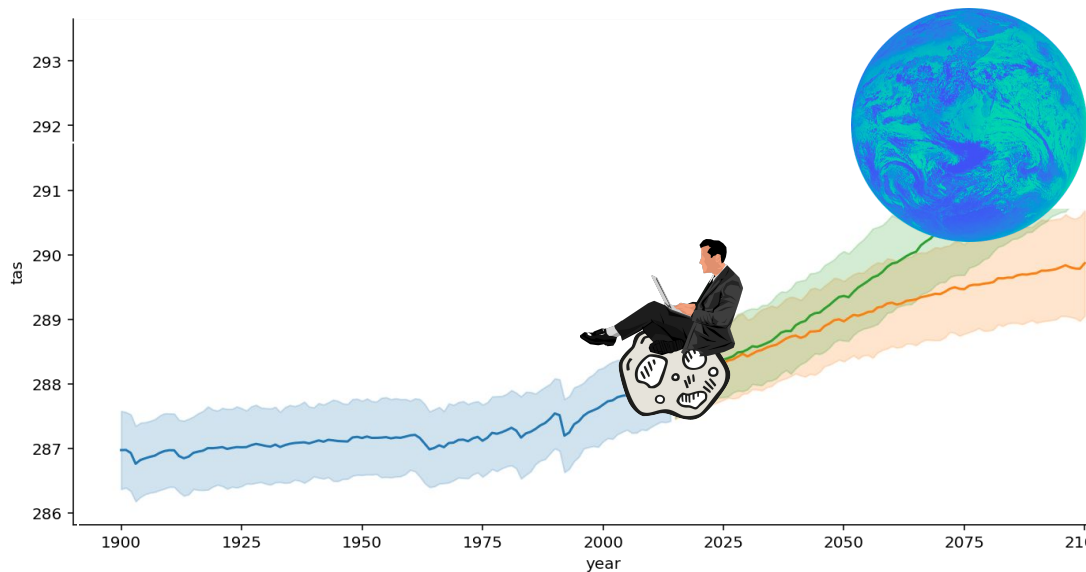

# Safety Critical Decision Making

**Open science  
in the creation of knowledge  
on the state and predictions of  
natural resources**

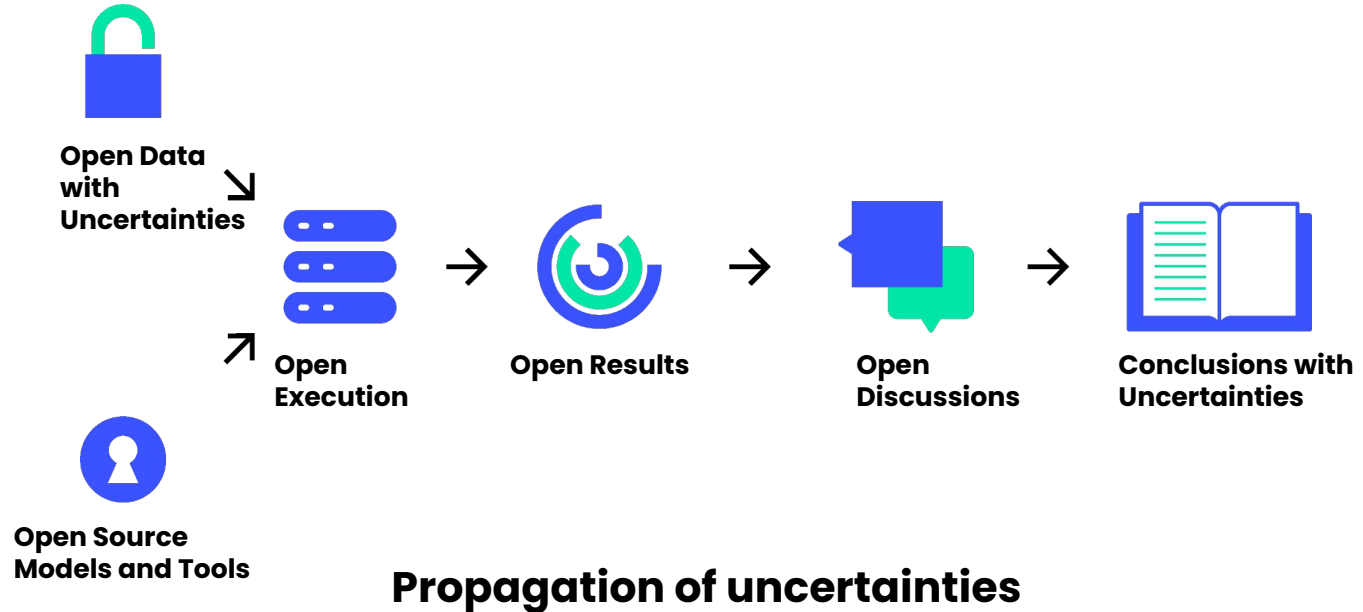

**Open science  
in the decision making  
and assessment of  
sustainable investment** ❌

Global Mean Surface Temperature prediction with [Pangeo](#), an open source development environment for the earth science.

# #FreeTheModels

## Traceability and Uncertainty of Environmental Information

# Openness as key Indicator for Sustainability

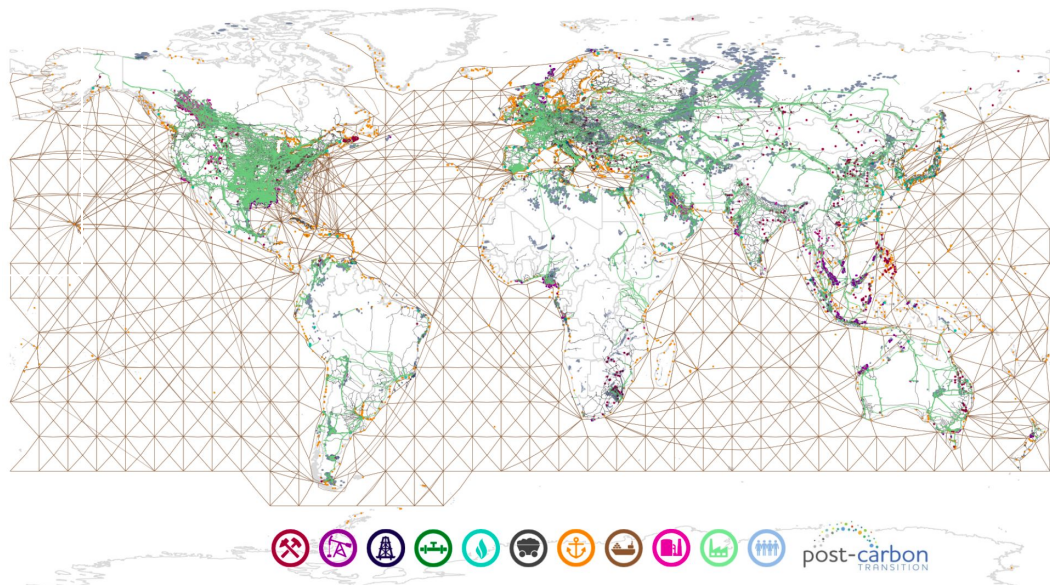

**By providing open data and open source models on sustainable intelligence, actors demonstrate their sustainable intention.**

Cedalion **standing on the shoulders** of Orion from  
Blind Orion Searching for the Rising Sun by Nicolas  
Poussin 1658

# Spatial Finance

Using Earth observation  
to measure the environmental  
impact and geolocation  
of business activity and supply  
chain.

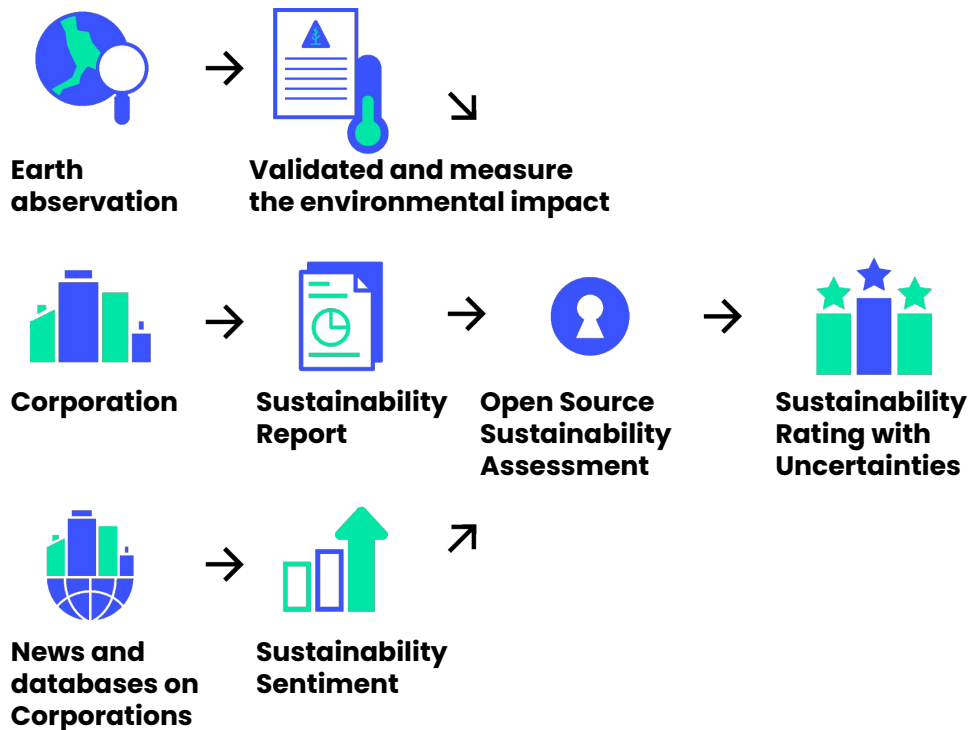

[Asset-Level Transition Risk in the Global Coal, Oil, and Gas Supply Chains](#)

# Open Sustainability in Investment

**Openness as key measure of  
traceability and uncertainty in  
sustainability rating.**

# Open Source – The most underestimated climate strategy

Let's build a free and open operating system for global environmental sustainability together.
